

## Always Be A Part Of Me

(1995)

Understand the way I feel about you  
I search your eyes  
To see you will  
Always be a part of me

No matter where we are  
Or will be  
In far or close proximity  
You have claimed  
A singular spot in my heart  
I'm holding intact  
Involuntarily

A safe and untouched  
Secret sanctum of my soul  
Central to my soul  
As guardian  
Of an ancient  
Endless love  
That will not die

That defies  
All doubt  
And death  
And disappointment  
Belies  
And breaks barriers  
Catapult past pain of separation  
Say  
You will always be a part of me  
You will always be  
A part of my heart  
You will always be a part of me  
I mean it  
Baby  
Surely, you will always be a part of me  
Always be a part of me
