

Gotta Cut Through

(c.1980's)

Gotta cut through
To some love now
Gotta reach through
For some peace
Please peace of mind
Got to rise
To the life force
First faced inside
Open wide
Fears aside
Can't deny
Life's alive
And won't leave us
Won't leave us alone

Gotta break through
With your loving
Gotta stay true
To what speaks
And entreats
From the heart
Reach out a hand
Take a stand
Guaranteed
Conscious creed
To fill and feed us
And free everyone

Gotta cut through
To some love now
Gotta reach through
For some peace
Please peace of mind
Got to rise
To the life force
First unearthed inside

Truth be told
Feel it unfold
Impart your heart
Employ the joy
That won't leave us
Won't leave us alone

Gotta cut through
To some love now
Gotta reach through for some peace
Please peace of mind
Heed the need
Ascend to lead
Kindness frees
And feeds every one
All us under the sun

Gotta break through with your loving
Gotta stay true
To what speaks
And entreats
From the heart
Don't dare hide
Warmth inside
Don't ignore
More's in store
To feel and heal us
And free everyone
All us under the sun
